3taps: One-Stop Data Shop for Developers

Keeping exchange-related data in the public domain

The Craigslist Lawsuit

3taps and Craigslist have reached a global settlement of 3taps' antitrust claims and craigslist's claims against 3taps.

API Registration

Now you do not need to register to use API.

What is 3taps?

3taps is an exchange platform dedicated to keeping public facts publicly accessible. We collect, organize, and distribute exchange-related data for developer use.

craigslist's misuse of the CFAA](#)

The Data Commons is open to all posting
sources and developers interested in
creating fair and efficient markets. All
transaction-specific information is available
at the same time, to everyone.
